United Methodist Conference Center - Offices

WHAT IS THE LEDC?

Membership in the LEDC is limited to Lakeland Chamber of Commerce Members. The goals of the LEDC is to expand economic and job opportunities for the residents of Lakeland, and to attract new business and industry to the community and to expand and broaden the local tax base through economic development and diversity.

ASSISTANCE

The Lakeland Economic Development Council provides assistance to new industries and existing companies which are expanding.

WHY JOIN?

Although we have been successful in attracting new industry and helping existing industry expand, economic development goes far beyond the relocation of a company, an advertising campaign, or a marketing mission. In its truest sense, it's a community commitment. It is a barometer that measures just how serious the community's leaders are about their economic well being.

WE NEED YOU TO BE INVOLVED

Because the LEDC is a community based membership organization, the financial support and investment of its members is the key to its existence and success. Our financial commitment will not only support the operations of the LEDC, but it shows increasing private sector support of economic development. You are invited to join the LEDC and show your support of the economic growth and diversity of Lakeland. Please fill out the attached membership application and return it today.

1989-2010 ECONOMIC DEVELOPMENT ACTIVITY

Between 1989 and 2010 Lakeland has absorbed over 40,027,603 square feet and created over 22,500 jobs with more than \$1 billion dollars in investments. Major projects include:

The LEDC produces publications and resources for our membership and for businesses interested in moving into Lakeland.

HIGH SKILL INITIATIVE This initiative was created in 2003 to attract and expand Lakeland's High Skill/High Wage employment base.

REAL ESTATE data is available as far back as 1989, including economic development activity, business & industrial parking, land availability, commercial land sales, speculative space built, build-to-suit projects, major leases signed, major buildings sold, and industrial office warehouses inventory.

MARKET SURVEY information includes Land & Building Comparisons, Cushman & Wakefield quarterly industrial warehouse reports and how Lakeland compares to the rest of the United States in Industrial Warehouse Construction & Absorption.

WAREHOUSES/OFFICE Space Surveys are tracked and updated by the LEDC. The office survey is a detailed one page listing of space 3,000 square feet and up. The warehouse listing is of 10,000 sq. ft. and up.

ECONOMIC DEVELOPMENT ACTIVITY sheets track the expansions and new industry in Lakeland from 1987 to present. The report lists the sq. ft. absorption, new jobs and capital investment for existing and new companies by year.

BACKOFFICE ANALYSIS is compiled information specific to support office operations. The analysis details telecommunications data, existing office centers, infrastructure and the labor climate. The analysis is a valuable resource for telecommunications centers and backoffice facilities.

ZIP CODE DEMOGRAPHICS are pulled together on each of the ten Lakeland area zip codes. This information includes population, education attainment, occupations, etc.

For more detailed information on Lakeland, please visit our website at www.lakelandedc.com.
